WELCOME & INTRODUCTIONS

TRAC GOALS, FRAMEWORK & AGENDA REVIEW
COMMITTEE GOALS

- Learn about Southern Nevada’s mobility challenges, new developments and opportunities.
- Learn about smart communities, emerging technologies and how these efforts can impact and improve mobility, accessibility and safety in Southern Nevada.
- Obtain feedback and recommendations on how to best address and prioritize mobility solutions.

MEETING FRAMEWORK

Meeting 2 - December 7, 2017 – Transit overview including Paratransit, senior transportation services, bicycling and projects of regional significance

Meeting 3 - February 1, 2018 – Mobility projects, update on Maryland Parkway Corridor and Resort Corridor and smart communities & innovation

Meeting 4 - April 5, 2018 – TOD, pedestrian safety and future developments

Meeting 5 - June 7, 2018 – Funding and On Board community recommendations

Meeting 6 - August 2, 2018 – Project priorities, recommendations & next steps

Item #5
TRAC RECOMMENDATIONS PROGRESS UPDATE
Phase 1 Recommendations Update

Planning Recommendations:

✓ Incorporate and adopt transportation values into RTC’s planning process.
✓ Prioritize unfunded projects into a three-tier system
✓ Develop and implement online planning tool

Funding Recommendations:

✓ Support Fuel Revenue Indexing effort

Phase 2 Recommendations Update

Transit & Technology Recommendations:

- Investigate funding options, high capacity transit and emerging technology options for Southern Nevada
- Continue to further study Maryland Parkway
- Continue dialogue and cooperation with the Resort Corridor
- Use existing and emerging transit technology assets for passenger comfort
Phase 2 Recommendations Update

Transit & Technology Recommendations Cont.:

- Consider a blended transit system
- Leverage assets as a regional integrated multimodal transportation platform to position the RTC and Southern Nevada as a leader in emerging technology in transit and transportation.

Phase 2 Recommendations Update

Governance Recommendations:

- Reconvene the TRAC committee following the 2017 legislative session
- Support the RTC’s 2017 Legislative Initiatives and encourage engagement of Transportation Innovation Day
- Request a standing/statutory legislative committee
- Encourage Public Private Partnerships

ON BOARD OVERVIEW & UPDATE
TRANSIT DEMAND - 2040

Emerging Transit Technology

High Capacity Transit Options

Traditional Transit Improvements

WHAT WILL ON BOARD DO?
New Routes
More Frequent Service
Faster Service

TRADITIONAL TRANSIT

Best Practices
High Capacity Corridors
Development Opportunities

HIGH CAPACITY TRANSIT
EMERGING TRANSIT TECHNOLOGY

IMPACTS TO OUR COMMUNITY

AUTONOMOUS VEHICLE SHUTTLE STATION

BOARD HERE

The autonomous transport revolution is well and underway. In tomorrow’s smart cities, autonomous vehicles such as buses, private cars and driverless shuttles will be an integral part of our everyday mobility.

The efficiency of autonomous technology is already being harnessed to drive down costs and increase convenience for people on the move.

COMMUNITY FEEDBACK SO FAR

- **Enhance**: Make transit more compelling
- **Connect**: Improve regional connectivity
- **Grow**: Encourage responsible development
- **Compete**: Make Southern Nevada more competitive
- **Sustain**: Develop sustainable solutions
TRAC’S ROLE

- Participation in our technical advisory group
- Provide input & feedback at major milestones
- Provide opportunities to educate and promote

THANK YOU
